

# SOLTCOIN

## A Secure & Community-Driven Crypto Asset

### 1. Introduction

Soltcoin (SOLT) is a decentralized digital asset built on the Binance Smart Chain (BSC) using the BEP-20 standard. The project is designed with a focus on transparency, gradual growth, and community participation. SOLT aims to grow sustainably through liquidity-backed development rather than short-term speculation.

### 2. Vision & Mission

#### Vision

To build a trusted, limited-supply digital asset that prioritizes transparency, security, and community participation.

#### Mission

SOLTCOIN aims to create a sustainable crypto ecosystem where holders benefit from clarity, fairness, and long-term growth rather than short-term hype.

### 3. Technology Overview

Blockchain: Binance Smart Chain (BEP-20)

Fast and low-cost transactions

Publicly verifiable smart contract

Transparent on-chain data

Designed with security best practices

### 4. Token Supply & Scarcity

Token Name: Soltcoin

Symbol: SOLT

Total Supply: 50,000,000 SOLT

Decimals: 18

The total supply is fixed at deployment. No additional tokens can be minted in the future.

### 5. Tokenomics

#### Token Distribution

The total supply of 50,000,000 SOLT is allocated as follows:

Liquidity Pool: 20,000,000 SOLT (40%)

Public Sale & Holders: 15,000,000 SOLT (30%)

Development & Growth: 7,500,000 SOLT (15%)

Marketing & Partnerships: 5,000,000 SOLT (10%)

Team (Locked): 2,500,000 SOLT (5%)

Team tokens are locked to align long-term incentives with the community

## 6. Liquidity & Stability

Liquidity will be allocated responsibly to support fair trading conditions. Locking mechanisms may be applied to enhance market stability and protect holders.

## 7. Roadmap

### Phase 1 – Foundation

Token creation

Website launch

Community setup

### Phase 2 – Growth

Liquidity deployment

Marketing campaigns

Community expansion

### Phase 3 – Expansion

Strategic partnerships

Utility development

Long-term ecosystem growth

## 8. Community & Governance

SOLTCOIN is a community-driven project. Future decisions will prioritize transparency, sustainability, and long-term benefits for token holders.

## 9. Security & Transparency

Smart contract developed with security-focused design

Transparent on-chain transactions

Future audits planned as the ecosystem evolves

## 10. Disclaimer

SOLTCOIN is a digital asset and not a financial product. Cryptocurrency investments involve risk. Participants are advised to conduct their own research before engaging with SOLTCOIN.
